vague topic: ethics and bias in ai-generated content

proper topic: Emerging deception: AI-generated content and the future of media

resources to check:

- superintelligence book and the concepts introduced there
- the youtube video AI dilemma: https://www.youtube.com/watch?v=xoVJKj8lcNQ (Watch it well)
- OpenAI CEO Sam Altman on AI governance, ethics, and innovation | A conversation with BiGS - https://www.youtube.com/watch?v=BZbjqiRvJPA&list=WL&index=23&t=110s
- aevy tv; future of jobs: on how it's going to be affectrd

outline:

- good use cases of ai genreated contet
- examples
- bad use cases of ai genreated contet
- examples

202

brain dump

- microsoft ai taia bot
    - did rant, racial bias
- amazon bot
- o1 good for reserach
- strike by artists

self driving cars: waymo, tesla

what am i good at

what can i provide value to the audience on

1. engineering : how it's going to change with ai
2. Several ai tools people can use right away to be more productive
   ai generated videos, images, audio, text
3. several bias and issues with ai
4. ways to better tackle ai isues

Experiments i’ve done

- how it works and how it's useful in research
- markdown to slides generator
- suno ai song generator
- chatpdf
- malayalam conversation generator
    - shout out to kavya manohar
- ai agents:
  streamlit project i made. demo +
  jupyter notebook agent for athena
- roasty with voice calling

bland ai

negative effects

- for everything above
