Hello folks!✨

This talk is going to be about software

what kind of software?

- the software that made **Mark Zuckerberg** drop out of Harward
- the software that lets us have a **smart-phone** for under 15k.
- the software that determines our **placements!**

But that's not all

This talk is also about:

- Freedom
- Developer Learnings
- MEC

Quick question

What is a **Program**?

A set of instructions written in code that is designed to perform specific tasks or functions **for the users**, in order to accomplish their objectives.

Heard about FOSS?

Another Question

Why MEC?

Introduction to FOSS

What it really is

and

Why you **should care**

Aldrin Jenson

- Software Engineer at **Parseable**
- Volunteer at **IndiaFOSS**
- MEC Alumni ✨

Okay, Let's now talk about

Masala Dosa

...Proprietary Software,

You pay money to buy software

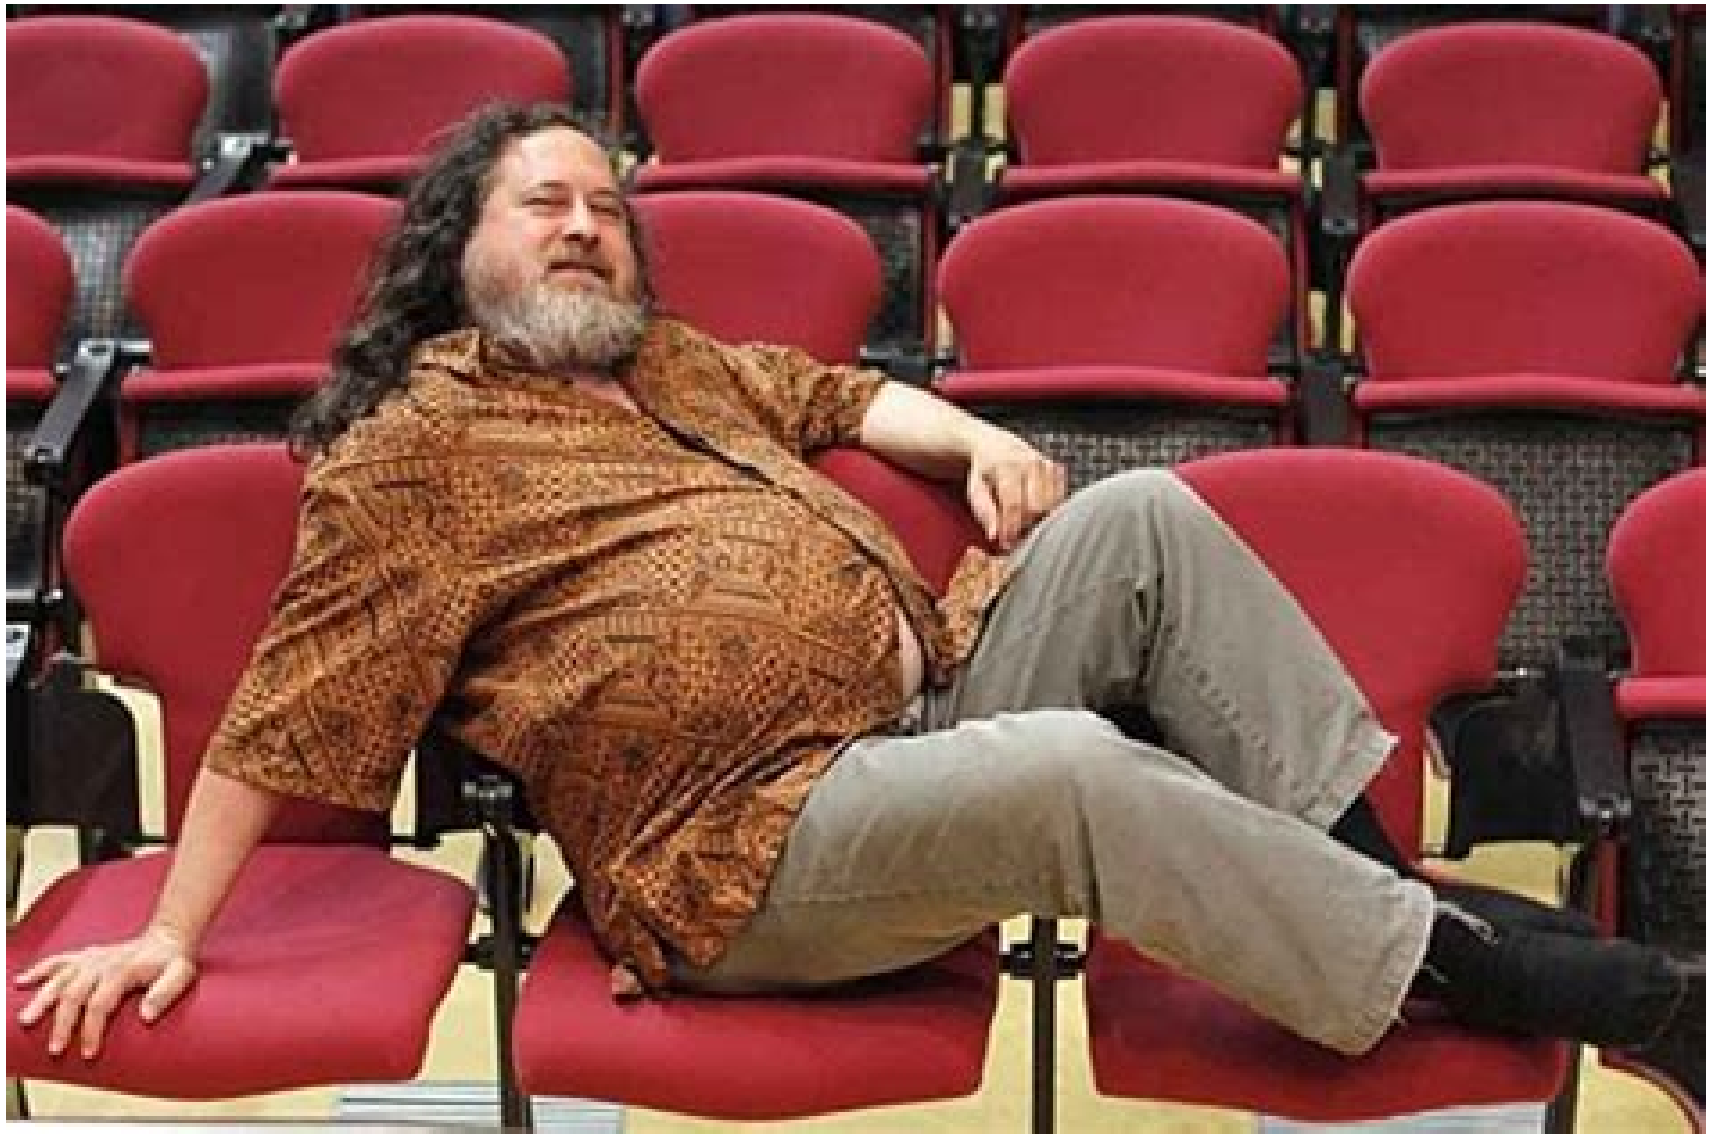

BUT

You **cannot** share with others what you bought

You don't have the right to **know** how your program **functions**

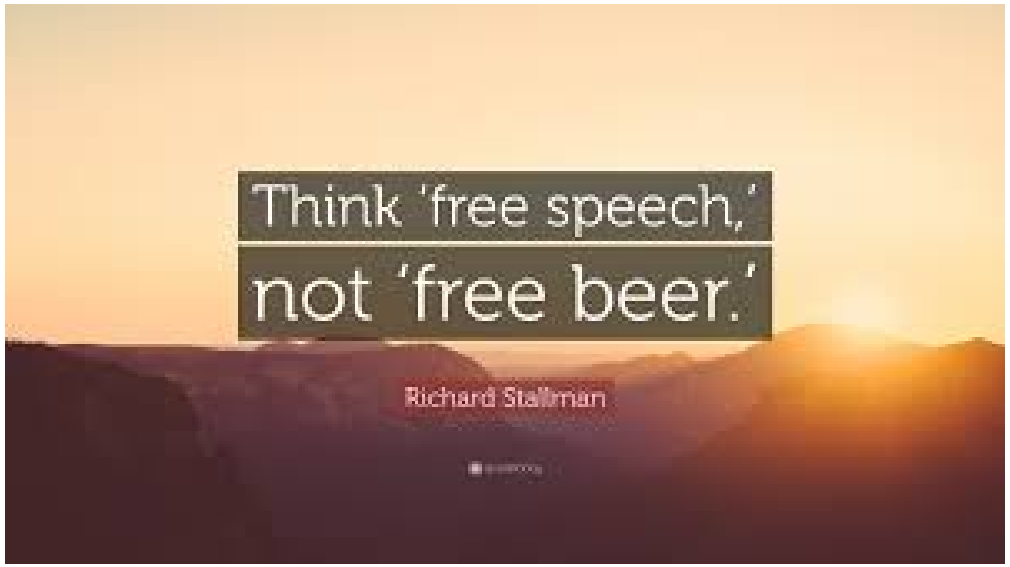

You can't make any modifications to the functionality

Seems a bit sad no? 

Free software

Software that respects the freedom of users

Any software which satisfies the **4 freedoms**

The 4 Freedoms

Freedom 0: The freedom to use the software for any purpose.

Freedom 1: The freedom to study how the software works and modify it

Freedom 2: The freedom to redistribute copies of the software.

Windows 11 Home (Download)

Microsoft

♡ Wish list

Windows 11 is the one place for it all. With a fresh new feel and tools that make it easier to be efficient, it has what you need for whatever's next. Buy and download Windows 11 Home to experience the benefits today.

- Less chaos, more calm. The refreshed design of Windows 11 enables you to do what you want effortlessly.
- Biometric logins.** Encrypted authentication. And, of course, advanced antivirus defenses. Everything you need,

₹ 10,379.00 incl. GST

Add to cart

Freedom 3: The freedom to distribute modified copies of the software.

The Free Software Movement

The GNU Project

@aldrinjenson

In almost any domain you can think of,
FOSS has had an impact

For someone conscious of privacy,

FOSS is just the best!

For a Developer,

FOSS is just the best!

Getting Started with FOSS

It's okay to start small

- Look for the most common programs you use in your daily life
- Figure out if they are FOSS
- If not, see if you can switch to a FOSS alternative.

<u>alternativeto.net</u>

F-DROID

good to contribute as well

Other steps

- Seriously Consider **Linux**
  - Ditch Microsoft, choose Freedom!
- Consider Lineage OS

Join Communities

- FOSS United
- Linux User Groups
- Open Street Maps
- r/freesoftware r/foss

Go for Conferences/Meetups

Contributing back to the community

Bringing more people to defy the status quo

Preach!

Tell people about FOSS

Volunteer

Help make communities better

If you like to code,

Contribute Code

Google Season of Docs

Rails Girls
Summer of Code

@aldrinjenson

Conclusion

If you have a choice, always consider the software that respects your freedom
